Ooma® Office

The best business phone system for the construction industry.

General contractors, construction foremen, and office workers all need to be responsive and connected to stay competitive and keep clients happy. Whether you are in the office or meeting with clients, architects and engineers at a building site, Ooma Office manages calls better so you can focus on your business - progressing each project, from wherever you are working.

Ooma Office, the #1 rated business phone service, provides the best value for construction companies.

✓ **24 x 7 Virtual Receptionist directs calls, provides helpful information.**

If you are unable to answer the phone when talking with clients, traveling to clients' sites, or it's after business hours, Ooma's virtual receptionist greets callers and provides answers to common questions. Your clients reach the right team member in one or multiple offices. Build menu options such as: Press 1 to reach the company directory, Press 2 for billing, Press 3 for hours of operation. It's flexible and easy to update to fit your needs.

✓ **Never miss a business call when out of the office.**

Ooma's mobile app enables you to use your business number anywhere. Incoming calls are easily identifiable so you know which calls are personal and which are business. You can flip an active call from your desk phone to your mobile phone when you need to depart while continuing a conversation. And your voicemails appear in your in-box for quick and easy listening and call-back.

✓ **Simultaneously ring numerous team members.**

With Ooma Office, you can create customized ring groups that simultaneously ring specific associates whether they are in the office or out in the field.

✓ **Free toll-free and local numbers.**

Eliminate long distance charges on calls between locations. Enjoy free unlimited calling to Canada, Mexico and Puerto Rico, with low international calling rates to other countries. Free fax numbers enable you to fax multiple documents simultaneously.

Colburn Construction, Inc.

" There's really no reason why a small company shouldn't have Ooma Office. I don't know much about big, expensive phone systems, but there's no need to buy one of those when you can have the value offered by Ooma Office. "

– Jonathan Arndt
General Manager, Colburn Construction, Inc.

Construction team members always stay connected to clients.

When clients call to consult on a new project, check on the status of a current job, or pay an invoice, their calls are answered immediately. It takes just seconds to park or transfer a call to the right staff members so your customers have a great service experience, which builds loyalty and referrals. You eliminate big bills with surprise add-ons or complicated, inflexible systems that don't serve you and your clients. And there's highly rated 24x7 support if you ever need it.

With Ooma Office, you get all the business phone features that are perfect for meeting the daily balancing act of managing your clients and your construction firm. You always get clear, flexible, reliable communications that save money in the field or at one or multiple offices.

Ooma Office offers three service plans to meet a variety of business needs. Pricing is all-inclusive with no surprise add-ons or setup fees.
