

## The best business phone system for non profits.

When you run a non profit, you need an affordable, yet simple and sophisticated phone system that helps you manage calls quickly and easily. Whether you are organizing a fund raiser, volunteer meeting, or providing products and services to those you support, you will never leave a donor or volunteer on hold or miss an important call or voice mail when in meetings or in the field.

Ooma Office, the #1 rated business phone service, provides the best value for non profit organizations.

**Winner**  
6 Years Running!

✓ **24 x 7 Virtual Receptionist directs calls, provides helpful information.**

When you are meeting with donors, team members, or those that benefit from your products and services, Ooma's virtual receptionist greets callers and provides information that answers common questions. Calls are easily be routed to the right department or staff member in multiple locations. Easily customize menu options such as: Press 1 for the directory, Press 2 for office location and business hours, Press 3 to leave a voice message. The system is flexible to fit your needs.

✓ **Never miss a business call when in or out of your office.**

Non profit team members frequently travel between offices, homes and other locations. With Ooma's mobile app, you can receive or return calls on your smart phone using your business number without using your personal number. If you need to leave your office while continuing a conversation, Ooma's call flip feature instantly switches the active call from your desktop phone to your smart phone without missing a beat.

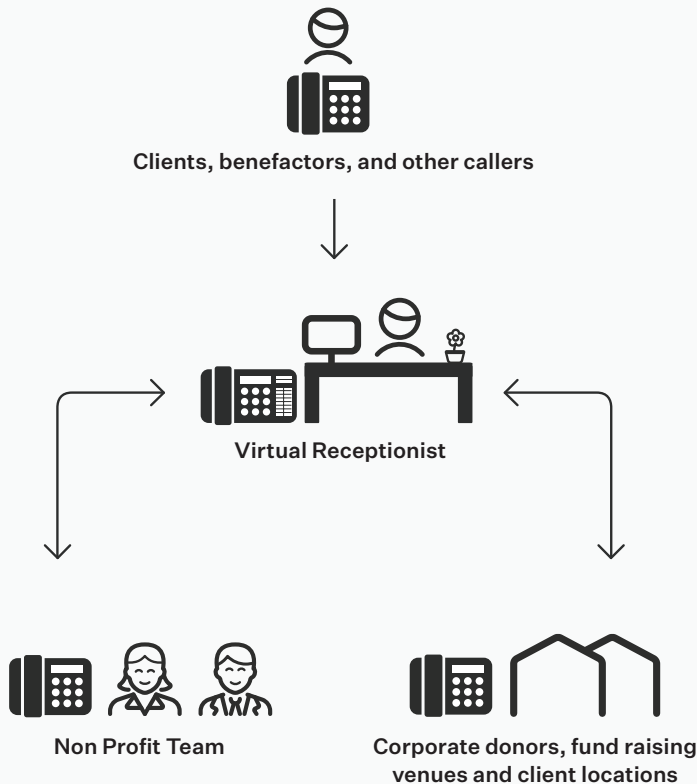

✓ **Free toll-free and local numbers**

Cost conscious non profit organizations can eliminate long distance charges in North America. Free fax numbers enable you to fax multiple documents simultaneously so nobody has to wait in line for a fax machine.

### First Presbyterian Church Ponca City, Ok

“ While looking for a suitable and affordable business VoIP phone system for our church, I discovered Ooma. After much review of alternative systems, we opted for Ooma Office and have never regretted the decision. Our monthly expenses dropped over \$100/month with no loss of functionality or features. Best of all, there's no on site PBX to maintain and manage. ”

– Rick Norris

Ooma enables non profits to have efficient communications so they can focus on serving their constituents.

When important calls come in from volunteers, donors, and community members, it takes just seconds to park or transfer a call to the right staff members. If it's after hours, Ooma's virtual receptionist routes calls to the right team member or department. Voicemails are sent to emails for easy pick up and one-click call back.

With Ooma Office, you get all the features that are perfect for meeting the daily non profit balancing act, while also saving money. You get clear, flexible, reliable communications that help you work smarter and more efficiently in one or multiple offices.
