### Harcourt Properties

“ With our previous provider there were interruptions in clarity. I did some research and decided Ooma Office was the best fit for us. We're saving well over 30% , approaching 40%. But it's not just the cost savings. It's the features and the clarity. The Ooma system is easy to work with. It's easy navigating through the portal and you can't believe it's that easy to do. You don't need customer support. It can be 8:00 at night and you remember you needed to do something and just to into the portal and make the change and you can sleep a lot easier. ”

### Cruz Properties

“ Many times we are working outside of the office, so it's very important that we are able to get back to a caller as quickly as possible. Since I've had Ooma, the reception has always been clear. Used Frontier and Verizon previously; got static on the line. The price was much lower and it offered more features. ”
