

## The best business phone system for the restaurant industry.

Owning or managing one or more restaurants requires constant coordination between wait staff, chef, food prep team, suppliers, and your customers. Whether you're a fine dining restaurant, quick-serve, or fast food, managing incoming calls, taking reservations, and servicing patrons is so much easier when Ooma Office is your business phone system.

Ooma Office, the #1 rated business phone service, provides the best value for the restaurant industry.

**Winner**  
6 Years Running!

✓ **24 x 7 greeting provides a professional experience to restaurant guests.**

When the host or maître d is seating customers, booking reservations, or engaged with the wait staff, **Ooma's virtual receptionist** attends to your incoming calls. You can build menu options such as: Press 1 for hours and directions, Press 2 for reservations, Press 3 for take-out. The system is flexible to fit your restaurant and your customers' needs.

✓ **Easily work remotely or on the go.**

Restaurant managers and chefs that oversee teams such as wait staff and cooks need to be in constant communication to address last minute changes and coordinate supplies with food and beverage vendors.

**Ooma's mobile app** provides extension dialing to your mobile phone so you can use your business number anywhere. You can also enable call forwarding as well.

✓ **Notify the right restaurant staff members simultaneously.**

Create customized ring groups that route calls simultaneously to the chef and kitchen team, or restaurant management, or host, for example. When a supplier or customer presses certain menu options in the virtual receptionist, calls go to appropriate team members that can address that callers' needs.

### Red O Restaurants

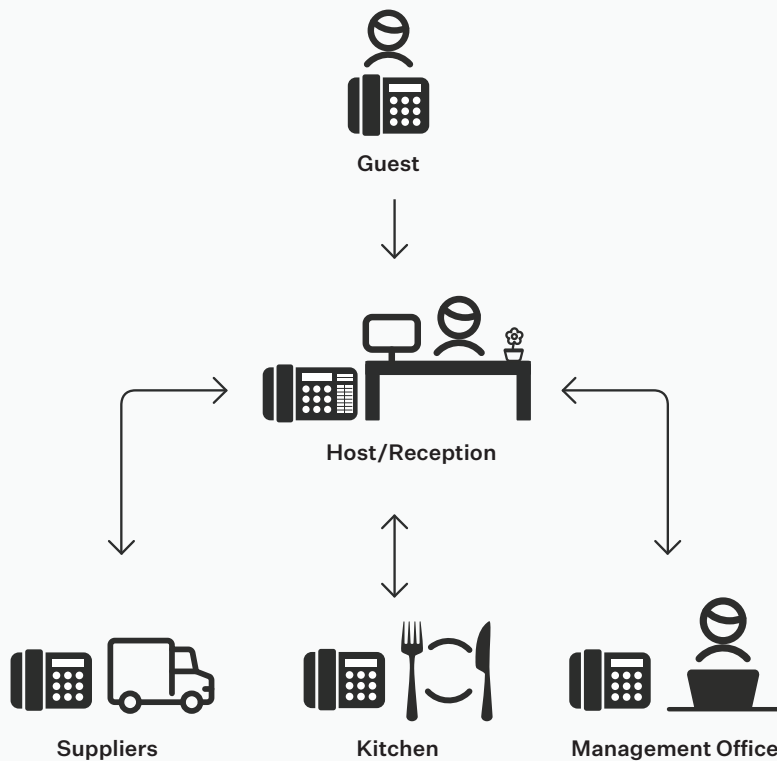

Red O Restaurants saved about 60% on their phone system while gaining a more modern, professional solution that's easy to set up and manage remotely.

“ We installed Ooma at each location and saved about 2/3 of the cost each time. I can make updates with just a click of the mouse, from my house. ”

– **Nathan Rollie**

*Owner, Rift Business Solutions  
(Red O Restaurants IT resource.)*

## Provide a smooth experience with the right business phone system.

When a guest calls to make a reservation, or a supplier calls to confirm the catch of the day, calls can be easily answered or routed. Chefs will know when large parties are coming in and they can staff and ready menu items accordingly.

With Ooma Office, your restaurant will get clear, flexible, reliable communications that save money.

**35 advanced features at a low monthly rate of \$19.95 per user. All-inclusive pricing. No nickel and diming or surprise add-ons or setup fees. We are so confident you'll love the quality and value of Ooma Office, there are no contracts.**
