### Bay Oak Law

“ It's the 21st century. We don't need to, and can't, be in the office all the time, and everyone already carries their own phone. Ooma brings lower costs (both in up-front investment and on a month-to-month basis), and greater flexibility. I would recommend Ooma Office to anyone who is interested in an economical phone package, without the fixed contracts and switches, and with the ability to take their office phone wherever they go. ”
