Equip your business to soar.

We provide a reliable business phone service with special features to save time, increase productivity and improve customer experience.

Choose your plan:

All plans enable you to connect and make/receive calls using a regular phone, your computer, and your mobile phone, and include basic telephony features like call waiting and voicemail.

Ooma Business Phone is best for small or single-user businesses that only require each person to have their own business phone line.

Ooma Business Phone Pro is best for multi-user businesses that need a full business communication solution including a main business number, automated receptionist, call routing and ring groups, audio and video conferencing, SMS texting, online fax, and more. Unlimited calling in North America is included.

High Level Feature Comparison Summary

Winner

Winner of the PC Mag Business Choice VoIP Award

Ooma Business Phone

This is the baseline business phone service with key business calling features. Calls are charged per minute, and you get all the convenience and performance of an award-winning business phone system.

Basic Telephony Features

Get a phone number for each user with productivity tools that include voicemail, call waiting, call forwarding, and simultaneous ring, plus other standard features to keep you connected.

Mobile and Desktop Apps

Also make and receive calls with the mobile or desktop app without giving out your personal number.

Easy Setup

An intuitive user portal lets you easily set up and manage your preferences.

Customer Support

Your Community Team or IT helpdesk provides support whenever you need it.

Ooma Business Phone Pro

This is a complete business phone solution that provides all the features of Ooma Business Phone plus a lot more. With Business Phone Pro, you get a separate number for your business, more than 40 advanced features, and unlimited calling in North America, all for just \$29.95 USD monthly per user, plus taxes and fees.

Call Automation and Ring Groups

Automate incoming calls with the virtual receptionist, multi-level menus, and ring groups to ensure no call goes unanswered.

Videoconferencing

Professional videoconferencing which includes simultaneous screen sharing and background noise suppression. Use it with your web browser or download the Ooma desktop and mobile apps.

SMS Texting and Online Fax

Connect in smarter ways using Ooma's texting and faxing solutions.

Unlimited North America Calling

No additional cost for calling within the U.S., Canada, Mexico, and Puerto Rico.

Advanced Call Blocking

Reduce unwanted calls with enhanced call blocking. Incoming calls are screened against a database of more than 2 million known robocall numbers.
